WOMEN'S ROLE IN THE UPDATE OF CIS?

- Women's role in the uptake of CIS should be looked at various level: Institutions level to local level.
- Use of practical experience and observation to enhance the use of CIS.
- Success rate of existing structures, programmes and activities such as saving schemes, radio jingles, caravans, can be used to improve the movement of CIS.
- Knowledge sharing amongst women.
- Use local languages and songs in Climate information dissemination.
- Focus group discussions can enhance update of CIS.

WOMEN'S ROLE IN THE UPDATE OF CIS?.....CONT

- Children especially at the primary level can help pass on CIS .Thus, syllabuses that are relevant to CIS should be encouraged in schools.
- Effective communication and extension of media coverage, as well as attractive packaging by women ambassadors of climate change and gender issues.
- Making sure that women are familiar and have access to modern ICT tools.
- Incentivizing and Channelling climate information through local leaders since they are often trusted by the local people.

WOMEN'S ROLE IN THE UPDATE OF CIS?.....CONT

- Women already working on CIS together with existing structures can identify and mobilize resources for sensitization on climate change and CIS

QUESTION

Meteorological services in most countries have not been effective, thus, in this light, how can we ensure that information provided by MET stations are practical and will help the local people.?

THANK YOU
