

# Subprogramme 3

## WAY FORWARD

---

FATIMA DENTON

Director

Special Initiative Division (SID)

United Nations  
Economic Commission for Africa

# OUTLINE

---

- CHALLENGES & LESSONS LEARNED
- WAY FORWARD
- PRIORITIES FOR 2018-2019

# CHALLENGES

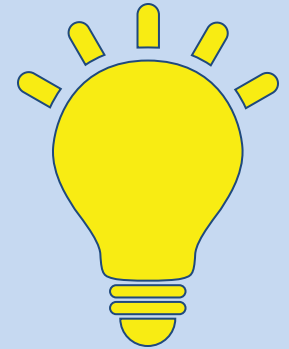

---

- **Resource:**
  - Paucity of data on robust research, good practices and lessons learnt on green economy;
  - Donors work on a limiting funding window;
  - Lack of continuous substantive financial support from development partners.
- **Implementation:**
  - Strategies for adaptive management;
  - Absence of strong and robust evaluative culture and metric system.
- **Knowledge:**
  - Limited understanding about the opportunities associated with green economy;
  - Increased demand from member states with limited resources to satisfy such requests;
  - Benefits of Climate Information Services not fully appreciated.

# LESSONS LEARNED

---

- Phased approach in green economy;
- New partnerships and adequate expertise involvement;
- Senior Experts Dialogues are critical for the success of programmes:
  - Dialogue platform;
- Better interdisciplinary linkages:
  - A triple Win (policies, co-ordination and capacity development);
- High involvement of member States;
- National institutions lead policy studies.

# WAY FORWARD

To promote the adoption and implementation of new initiatives with a view to advancing sustainable and equitable development in Africa.

The sub-programme strategic direction will focus on:

Enhanced collaboration with other ECA subprogrammes.

Research, policy development and analytical work to support member States.

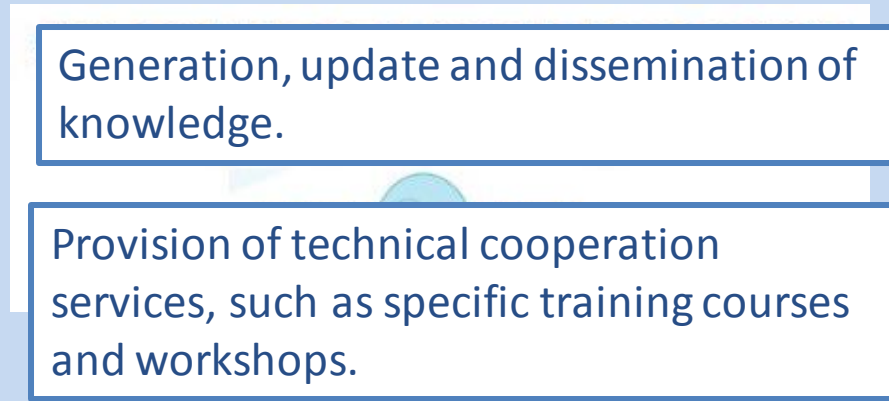

Policy dialogue and the exchange of experiences and best practices among stakeholders at the regional, national and local levels.

Generation, update and dissemination of knowledge.

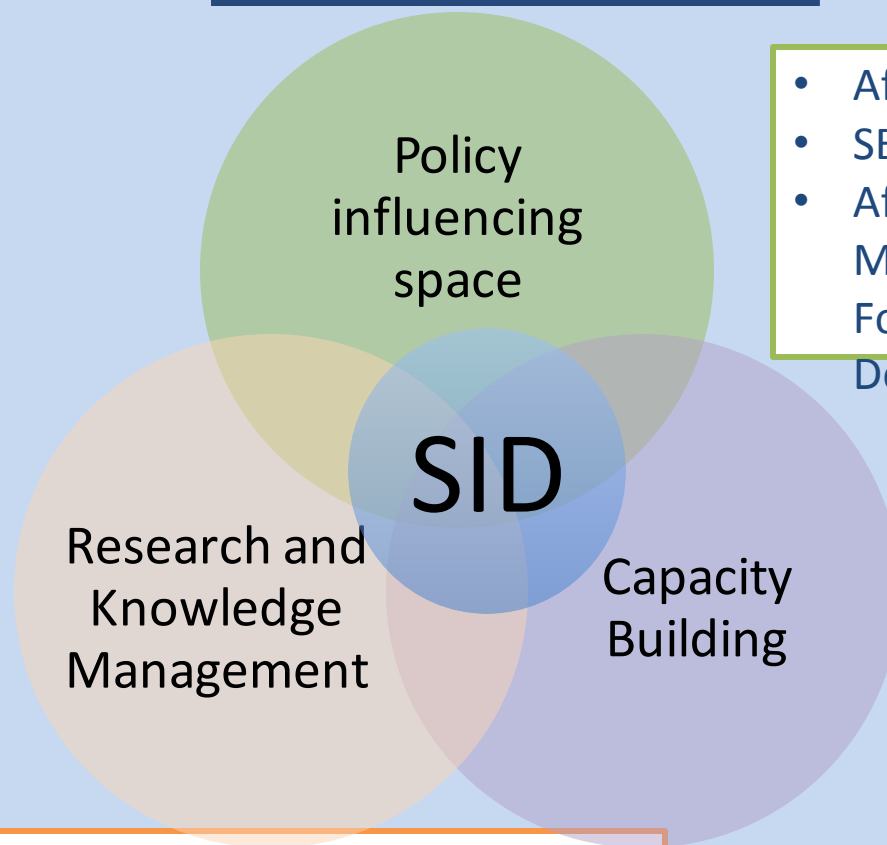

Provision of technical cooperation services, such as specific training courses and workshops.

Partnerships with other African and non-African research, specialized institutions and development partners.

2018 - 2019
