Overview of the African Union Data Entry, Analysis and Reporting Tool on Agenda 2063 Implementation
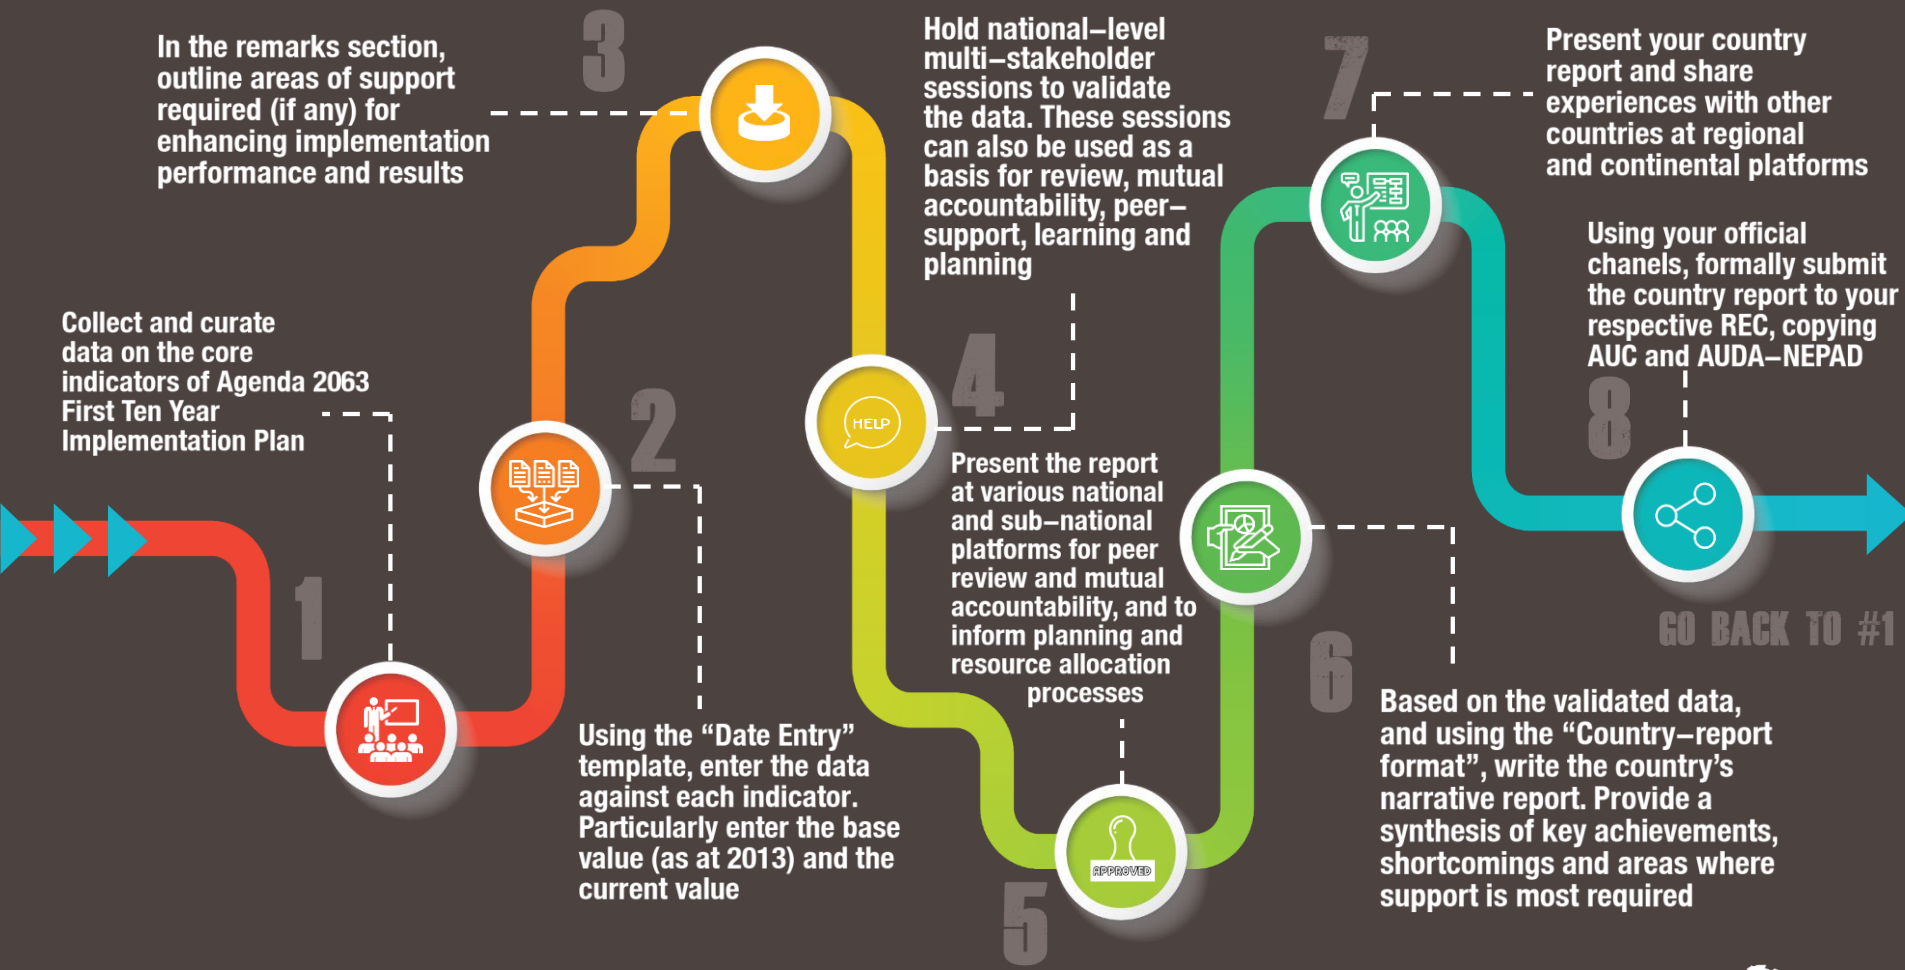

Dr Barbara Glover – AUDA-NEPAD

Background and Rationale

- Part of the process of operationalising Agenda 2063 is the M&E Framework;

- Agenda 2063 M&E Framework ➜ the instrument for assessing and reporting on performance on the implementation of Agenda 2063 FTYIP

    – Reports serve as the basis for mutual accountability and peer learning;
    – Support decision making for accelerated attainment of Agenda 2063 results;
    – Initial steps on country implementation reports to the Assembly

- The focus is data entry, analysis, visualisation and empirical reporting using the core indicators of Agenda 2063 FTYIP

Key Steps in Preparing Reports on the Implementation of Agenda 2063

3 In the remarks section, outline areas of support required (if any) for enhancing implementation performance and results

Hold national–level multi–stakeholder sessions to validate the data. These sessions can also be used as a basis for review, mutual accountability, peer–support, learning and planning

7 Present your country report and share experiences with other countries at regional and continental platforms

Collect and curate data on the core indicators of Agenda 2063 First Ten Year Implementation Plan

4

Using your official chanels, formally submit the country report to your respective REC, copying AUC and AUDA–NEPAD

1

2

Present the report at various national and sub–national platforms for peer review and mutual accountability, and to inform planning and resource allocation processes

8

Using the "Date Entry" template, enter the data against each indicator. Particularly enter the base value (as at 2013) and the current value

6

GO BACK TO #1

5

Based on the validated data, and using the "Country–report format", write the country's narrative report. Provide a synthesis of key achievements, shortcomings and areas where support is most required
